HTML, CSS, Sass, JavaScript, Vue.js, Nuxt.js, Vuetify, Firebase, Git, Github, Figma, Node.js, MongoDB

WORK EXPERIENCE

Frontend Developer @ CONNEKT STUDIO

Bangladesh, Full-time, January 2023 – Present

CONNEKT STUDIO is a venture studio & consulting company based in Bangladesh. Worked as a frontend developer responsible for building, deploying, and maintaining web applications.

Technology: HTML, CSS, Sass, JavaScript, Vue.js, Nuxt.js, Firebase, Vuetify, Figma,

- Developed and implemented web pages using Vue.js and Nuxt.js, following design references to create visually appealing and functional user interfaces.
- Used Vuetify and CSS to create responsive web designs that work across multiple devices and screen sizes.
- Integrated REST APIs using Axios and Fetch, ensuring seamless communication between the front-end and back-end systems.
- Utilized Git and GitHub for version control and collaborative development, allowing for easy management of code revisions and contributions from multiple team members.
- Contributed to the development of vocalo.ai, ApolloHMS, a hospital management system, and a voice-to-text transcription app, applying technical skills and knowledge to solve complex problems and create effective solutions.
- Demonstrated strong problem-solving skills, attention to detail, and a commitment to continuous learning and improvement, contributing to a positive and productive team environment.

PROJECTS

Vocalo.ai is an AI-powered language practice platform offering on-demand assistance for learners seeking to enhance their speaking, reading, writing, and other linguistic skills

Live Site: <https://vocalo.ai>

Tools/Technology: HTML, CSS, Tailwind CSS, Nuxt.js, JavaScript, Node.js & Google Firebase

- Spearheaded the creation of Vocalo.ai, an innovative AI-powered English language practice platform.
- Implemented real-time AI chat for personalized speaking and reading exercises.
- Introduced a dedicated 'Discover' section where users can seamlessly discuss their favorite topics, providing an immersive and enjoyable learning experience beyond traditional language exercises.
- Integrated a feedback system, providing personalized insights for users to enhance their English proficiency.
- Ensured a user-friendly application design, prioritizing ease of navigation and accessibility.
